

FEED BEAM EXTENSION R327

The Feed Beam Extension R327 increases the width of the feed beam. This enables the cutting width of the robot to be increased.

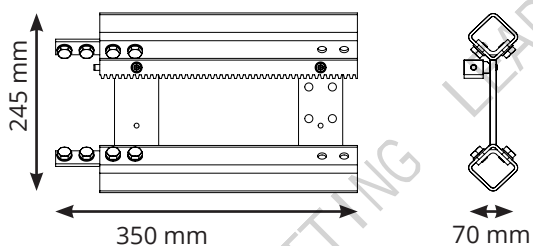

One extension per side of the standard feed beam can be fitted which increases the total width to 2300mm (7ft 6in).

TECHNICAL DATA

Increased cutting length per section	350mm (1ft 2in)
Weight	7kg (15lb)

SIZE

OPTIMAL FOR

- For horizontal hydro demolition/scarifying
- In combination with Conjet Rotor
